No. 727-C.I.34.

Station Madras., *Dated the* 30th June 1934.

From (Name) V.Ramakrishna Esq., M.A., I.C.S., M.L.A.,
(Designation) Director of Industries,

To The Secretary to the Government of Madras,
Development Department.

Sir,

I enclose a copy of the proceedings of a meeting of the Board of Visitors to the Government Trade School, Mangalore held on 20th June 1934 and of the notes of the Inspector of Industrial Schools thereon.

(A)
Mad 378: 588
1.5.34

As a report is due to Government as to the future of the three schools at Mangalore, Calicut and Bellary, I suggest that the Proceedings be recorded with the remark that action on the various resolutions will be deferred pending receipt of a report from the Director of Industries on the record, progress, and future organisation of the three new schools, the institution of which was sanctioned

(Copy)

Board of Visitors meeting at Government Trade School, Mangalore - 20th June 1934.

I submit herewith the proceedings of the meeting and have the following remarks to offer.

Resolution No. 1 calls for no comment.

Resolution No. 2 raises a large question. I tried to convince the members that

(1) the standard of education of the students is too low,

(2) that properly qualified staff for a diploma course as suggested would be too costly considered in relation to the number of students and

(3) that the works in Mangalore do not afford sufficient facilities for a course as suggested. The members considered that fully qualified students would be forthcoming if a diploma course was available and they appeared to have good reason for this view. They considered that for a small class of 10 per annum or 50 in all extra staff could be justified and at reasonable cost, and they agreed to appoint a sub committee to go into the question of facilities for practical training. Action on the resolution may, therefore be deferred till the Board has had another meeting to consider the sub committee's report and submitted more detailed proposals.

Resolution No. 3 - deals with three subjects a woodwork course at present a two years full time day course, an electric wiring class sanctioned for two years and the sanction now expiring and the provision of scholarships. I have instructed the Superintendent to submit proposals with a statement showing the extra cost involved and the relation the new estimated cost of the school will bear to the forecast sent with the

Director's retrenchment proposals. Action may be deferred pending the receipt of the Superintendent's.

Resolution No. 4 will be dealt with as a report now due to Government as to the future of the three new schools sanctioned in the first case as a temporary experimental measure and action on the resolution can be deferred till orders are received on that report.

W.FYFE,
21/6.
Inspector of Industrial Schools.

Government Trades School, Mangalore.

Proceedings of the meeting of the Board of Visitors held on 20th June 1934.

P r e s e n t:-

1. The President, District Board, South Kanara (Chairman).
2. The Chairman, Municipal Council, Mangalore.
3. M.R.Ry Rao Mahadur N.Venkat Rao Avl.,
4. M.R.Ry M.S.Shresta Avl., M.L.C.,
5. The Inspector of Industrial Schools (Secretary).

Read report of period June '33 to June '34. The Board wishes to record its appreciation of Mr.Rajan's work as Superintendent and its regret at the untimely death of Mr.Rama Rao.

2. The Board is of opinion that a diploma course on the lines of the L.M.E. & L.E.E. courses of the School of Technology should be instituted at the earliest opportunity and meantime resolves that a sub-committee consisting of the Chairman, Municipal Council and Mr.Shresta with the Superintendent as Secretary, be appointed to get into touch with employers with a view to securing facilities for practical training for youths of the requisite standard of general education.

3. Resolved to reiterate last meeting's resolution that Wood-work should be made a five years'course and the Wiring course made permanent, and that two scholarships per annum tenable for five years, 10 scholarships in all, should be given in Wood-work, and two per annum tenable for 2 years - 4 in all - in Electric Wiring.

4. Resolved that the School should now be made permanent and provided with its own permanent buildings so that minor alterations may be made freely to suit the work.

A.B.SHETTY,
C h a i r m a n.
